- Tailwindcss

PROJECT

Movie Search Web Application
Tech Stack: HTML, CSS, JavaScript, REST API (TMDB)

- ➢ **Developed a movie search application that allows users to search for movies by title, fetch detailed information including movie posters, overviews, and release dates from The Movie Database API (TMDB).**
- ➢ **Integrated dynamic video fetching by displaying YouTube trailers of selected movies using the TMDB API, enhancing user engagement and movie exploration.**

Food Web Application

Tach Stack HTML ,CSS,REACT JS, REST API

- ➢ **Developed a food application user to show food and fetch detailed information including name price and category**
- ➢ **Flitter the category in pizza burger and chicken to flitter data and the bar**

EDUCATION

INDIRA GANDHI NATIONAL OPEN UNIVERSITY

BACHELOR OF COMPUTER APPLICATION-PURSUING

GOVT-co-ed sr.sec school, Dwarka-12TH

percentage-68%
